To complete your document submission, please follow the instructions outlined below. Begin by preparing your PDF file, ensuring that it meets all necessary requirements and standards for your specific use case. Once you have your PDF file ready, save it appropriately with a clear and descriptive name.
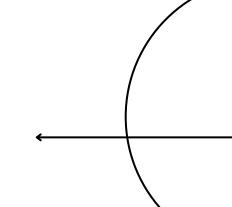

After your PDF file has been prepared and saved, navigate to the designated directory on your system. Locate the 'path' folder within this directory. This is where you will need to place your prepared PDF document.

Simply drag and drop your PDF file into the 'path' folder or use the file upload function to transfer it.

If you encounter any issues during this process contact support for further assistance.

Thank you for your cooperation.
